

Mohamed Shabeel Ashraf

MEAN Stack Developer

Kerala, India | +91 9895 9600 30 | shabeelash5@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Self-taught Full-Stack Developer with one year of experience building scalable web applications using Angular, NodeJS, ExpressJS, NestJS and MongoDB. Skilled in performance optimization, backend integration, and delivering high-quality solutions. Passionate about solving real-world problems with modern web technologies.

Skills

- Front-end Development: HTML | CSS | JavaScript | TypeScript | Angular | Tailwind CSS
- Back-end Development: Node JS | Express JS | Nest JS | MongoDB | Mongoose | Postgres SQL
- Integrations: Razor pay | Stripe | JWT | Socket.IO
- VC & Deployment: AWS | Nginx | Route 53 | EC2 | Render | Vercel | Git | GitHub

Projects

Educational Platform | *Angular, Nest JS, Mongoose, Tailwind CSS*

[GitHub](#)

- Build a user-centric educational platform with interact learning modules and real time tracking.
- Leveraged Nest JS for scalable backend, ensuring smooth API integration and secure data handling.
- Implemented JWT-based authentication for secure login, ensuring safe access to personalized content.

ERP System | *Angular, Express JS, Mongoose, Node JS, Tailwind CSS*

[GitHub](#) | [Live Link](#)

- Developed an ERP system for supply chain operations with inventory and vendor management.
- Integrated real time using Socket.io, secured authentication with JWT and handled payments via Stripe
- Deployed the frontend on Vercel and the backend on AWS EC2, ensuring high scalability.

E Commerce Application | *Express JS, Mongoose, Node JS, EJS, Bootstrap*

[GitHub](#) | [Live Link](#)

- Built an e-commerce website with shopping cart, admin controls and session-based authentication.
- Integrated Razorpay payment gateway for smooth checkout implemented.
- Deployed the application on Render and used EJS and bootstrap for a responsive UI.

Management Tool | *Angular, Node JS, Express JS, MongoDB*

[Github](#) | [Live Link](#)

- Developed a multi-functional tool with a Password Generator, Weather App and To-Do list.
- Implemented real-time weather updates, secure password generation and CRUD functionality for task management.
- Leveraged Mongoose for efficient data modelling and seamless interaction with MongoDB.

Education Up to

MEAN Stack Development (2023 – Present)
Independent, Self-Taught MEAN Stack Developer

B-Tech Electronics and Communication Engineering
College of Engineering Thalassery
